EXPERIENCE

TATA CONSULTANCY SERVICES (TCS) | Apr 2026 – Present
Developer - SAP Digital Manufacturing

- Develop and maintain integrations between **SAP Digital Manufacturing (DM)** and **SAP S/4HANA**, keeping shop-floor execution in sync with ERP data.
- Build custom DM plugins and services with the **SAP Cloud Application Programming Model (CAP)** and **SAPUI5** front ends for production users.
- Building a **machine learning model that detects faulty bearings** from production-line camera images, designed to feed results into SAP DM with an **LLM layer** for defect analysis.

EMERGYS SOFTWARE PVT. LTD. | Jan 2026 – Mar 2026
Salesforce Developer - Trainee Engineer

- Developed **Apex classes, triggers and Lightning Web Components (LWC)**, following bulkification and governor-limit best practices.
- Automated business processes with **Flows, approval processes and validation rules**, reducing manual intervention.
- Implemented **record-level security** using OWD, role hierarchy, sharing rules and permission sets.

C-DAC, NOIDA | Oct 2024 – Nov 2024
Ethical Hacking and Penetration Testing Intern

- Built a **real-time monitoring system** with **Nagios Core** for 5+ applications, and ran **Wireshark** and **AMASS** recon to surface vulnerabilities early.
- Automated threat-intelligence gathering with Google Dork scripts against the **Google Hacking Database (GHDB)**, cutting manual research time by **60%**.

PROJECTS

WEB APPS FOR LOCAL BUSINESSES | Freelance, 2026

- **FIT-SUM GYM**: gym website and member portal in **React, Vite and Tailwind CSS** on a **Google Sheets backend**, with phone + PIN member login and an owner/staff admin dashboard.
- **Hair Fort salon** and **restaurant** sites: WhatsApp booking and ordering, English/Hindi/Marathi, light and dark themes, and offline support.

DONATION PLATFORM FOR GOVERNMENT | Apr 2025

- Delivered a full-stack **MERN** application under a **7-day government deadline**, managing donation requirements for **3,700+ organizations** across 5 departments.
- Built **role-based dashboards** (Donor, Head, Verifier, Appealer) for request creation, approval and fulfillment tracking, with **JWT** authentication and **Nodemailer** email alerts.

AUTOMATED SKIN DISEASE DIAGNOSIS | Jan 2024 – May 2024

- Built an ML pipeline with **GrabCut** segmentation and **GLCM** features; Decision Tree, Random Forest and KNN classifiers reached **97% accuracy** on ISIC 2019 and HAM10000.

EDUCATION

Walchand College of Engineering, Sangli
B.Tech in Computer Science and Engineering
May 2025 | **CGPA: 8.05 / 10**

SKILLS

- **Languages:** JavaScript, Python, C++, C, Apex, SQL
- **Frontend:** React, SAPUI5, LWC, Tailwind CSS, HTML, CSS
- **Backend:** Node.js, Express.js, SAP CAP, REST APIs, JWT
- **Platforms:** Salesforce, SAP DM, SAP S/4HANA, MongoDB, Vercel
- **ML:** Random Forest, Decision Trees, KNN, deep learning
- **Tools:** Git, GitHub, Jira, Postman, Wireshark
- **CS fundamentals:** DSA, OOP, OS, DBMS, Computer Networks

ACHIEVEMENTS

- **Winner**, VSM Hackathon 2024 (15+ teams).
- **Best Research Paper Award**, Intl. Conf. on Communication, Image Processing and Computing 2024.
- **1st Runner-up**, Webnatic Techumen 2023 (travel agency website).
- **Finalist**, Impulse 2024 (300+ participants).
- Solved **400+ problems** on LeetCode and CodeChef.
- **Foundation For Excellence Scholarship**, 2021.

CERTIFICATES

- **NVIDIA**: Fundamentals of Deep Learning *Jan 2024*
- **Postman**: API Fundamentals Student Expert *Nov 2023*
- **Atlassian**: Agile Project Management with Jira *Dec 2024*

LEADERSHIP

- Organized 2 blood donation camps (2023, 2024) with **210+ donors**; led the Global Mandate mega-event committee.
- Ran a session on AI tools and presentation skills for **80+ students**.
